

Community Service Learning (CSL) Support for District 11 Academic Year 2010–11

Supported Youth Education

SF State assigned 19 America Counts tutors to eight K-8 schools in D-11.

D-11 Schools or After-school Site	# of Tutors	# of students tutored
Cleveland	2	110
Guadalupe	1	20
Jose Ortega	2	52
Longfellow	4	210
Monroe	1	30
OMI Excel Beacon	3	140
SF Community	4	73
Sheridan	2	60
TOTAL	19	695

Total hours = of 4,098 @ SF State’s Work-Study pay rate = \$49,176.

Fostered Communication

ICCE developed a website for the OMI Community Collaborative so group members and residents can connect with one another online.

www.OMICCSF.ning.com

Website development = \$6,000.

Cared For Our Neighbors

Direct service: 10, 119 CSL students performed a total of 7,976 hours of service at D-11 nonprofits and businesses. At San Francisco’s minimum wage of \$9.92 per hour, that represents more than \$79,122.

Hired Dedicated Employees

ICCE staff and two students worked in D-11, either in Supervisor Avalos’s Office, or doing other projects in the District. Combined staff and student salaries totaled \$20,698.

Developed Leaders

Faculty consultants taught three workshops whose combined attendance was 49 people. For-profit organizations normally charge an average of \$200 to attend similar workshops, but the CSL program only charged a \$10 registration fee. This represents a professional development investment value of \$9,800.

Invested in Tomorrow

SF State faculty from 6 academic departments were awarded grants totaling \$24,200 to integrate CSL into their courses. Students in those courses are expected to work with D-11 nonprofits and businesses this coming academic year.

The CSL office won \$24,000 in grant awards for the D-11 Capacity Building project. This generated \$164,724 in direct services to the District, which does not include non-funded CSL student hours, funded faculty, or additional ICCE staff time.

Professional Development Workshops

During spring semester 2011, ICCE hosted three leadership development workshops for District 11 nonprofits, community-based organizations, and small businesses. 1) A one-day **Marketing Workshop** covered basic marketing principles, including branding, messaging, and advertising. 2) A two-day **Grant-writing Workshop** helped participants learn about the core components of writing grants and common pitfalls. 3) **Utilizing Census Data** gave a brief overview of census data tools, how to use them, and culminated with participants creating a short profile. At the end of each workshop, participants were asked to anonymously fill out evaluations to help us meet your future needs.

Evaluation Summary

Marketing		Grant-writing		Utilizing Census Data	
Number Registered	14	Number Registered	25	Number Registered	33
People who Attended	12	People who Attended	19	People who Attended	21
