### Looking for a service-learning or academic internship placement site?

Register with SF State's community engagement online website, [ULink](#) to view the current list of community partners and opportunities.

ULink is SF State's community engagement online platform for community partners, faculty, and students. ULink is for placement site opportunities, which includes community engaged volunteer and service-learning positions as well as academic internship placements. This web-based database creates and tracks linkages between faculty, students, and community partners.

Our new and improved website draws many of its functionalities from SFStateULink.org but with easier to use functions and a new look to compliment.
